Letter of Support

I, Dr. Oliver Fuchs from the Office for Regional Development Leine and Weser Region, Germany hereby declare my support for the general ideas and work carried out by the private organization GreenDriveThinking.

GreenDriveThinking is working on traffic reduction projects with a focus on addressing the needed behavioral change to create sustainable driving patterns and behavior. Through various projects and initiatives different age groups are being addressed thus working with the traffic issues not only in short term but creating a foundation for long term solutions.

Our Office for Regional Development Leine and Weser Region has proposed a project for INTERREG VB North Sea 2015 project call addressing the public transportation issues in rural areas. We strongly believe that GreenDriveThinking initiatives addressing information, citizen engagement and behavioral change will complement our project.

We have asked GreenDriveThinking to take an active role in our project with the aim to engage cities in rural areas in Denmark.

We look forward to see our project and GreenDriveThinking projects contribute to better rural transportation and a better environment for the benefit of citizens in the North Sea region.

Dr. Oliver Fuchs
Office for Regional Development Leine and Weser Region
